

AEC Europe – Press Release, November 23, 2016 – Munich, Germany.

AEC offers the 2017 RAM 1500 Sport with 'Black Package'

EC brings the new 2017 RAM 1500 Sport Crew Cab one step further by offering the exclusive 'Black Package'.

The edition steers the 2017 RAM 1500 Sport exterior towards a more personalized appearance, appealing all RAM 1500 Sport truck and pickup enthusiasts.

Not only does the RAM 1500 deliver an outstanding combination of best-in-class fuel efficiency, unsurpassed torque and a surplus of towing capability, but it also caters to private use as one of the most recognizable pickup on the road. In this regard, the AEC Black Package includes 20-inch black painted alloy wheels, matched with black painted tubular side steps and black RAM badges and emblems in the front, side and rear of the pickup. The package is available to 2017 RAM 1500 Sport Crew Cab in Bright White, Bright Silver Metallic, Black, True Blue Pearl, Maximum Steel Metallic, Granit Chrystal, Flame and Delmonico Red.

The 2017 RAM 1500 Sport 4x4 comes with a 5.7L HEMI V8 engine and an 8 gear automatic transmission. It includes electronic stability control (ESC), ParkView rear back-up camera, multilink coil-spring rear suspension and electronic on-demand transfer case. The interior features heated and ventilated leather-trimmed 2 front separate seats, driver's side power adjustable, heated leather steering wheel, automatic temperature control, aluminium and chrome interior accents.

Essential accessories offered through AEC network on the 2017 RAM 1500 Black Package are an LPG System, PRINS VSI 2.0 powered by AEC, with RAM optimized hard/software and three adapters included, tri-fold solid Tonneau cover, LEER 700 Tonneau Cover and LEER 100 XL CAP inclusive of windows.

About AEC

AEC is an authorized importer for the DODGE and RAM brands in Europe, in cooperation with Fiat-Chrysler Automobiles US LLC. The vehicles are built in North America by FCA and re-engineered at the AEC vehicle-processing center in the port of Antwerp to meet European standards and regulations as well as rigorous quality expectations of the local consumer. The importer ensures smooth distribution process to the dealer network by providing a wide variety of centralized services including technical conversion, European anti-corrosive protection, full European warranty and parts – all made to match factory quality. AEC's professional network now counts over 150 dealers covering major European countries and can be found using the online dealer locator on the importer's website.
